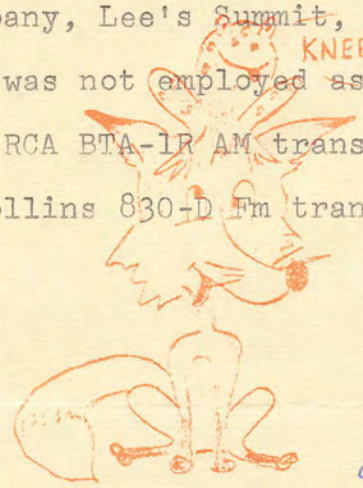
SAUK BROADCASTING CORPORATION

Dear Mr. Wesolowski:

Your reception report appears to be correct as this is the time we have our monthly frequency tests with commercial radio monitoring company, Lee's Summit, Mo.

However I was not employed as cheif engineer at the time.

We run an RCA BTA-1R AM transmitter(1000watts Day,250 Watts Night) and a Collins 830-D Fm transmitter (3000 Watts ERP) on 104.9 Mcs.



Yours truly,

A. E. Skinner III
Chief Engineer
WA 9 CUP
